

Creative with Cardboard

Recycling & Management

Ward's cardboard recycling services provide simple waste collections aimed at maximising the amount of waste you recycle. We actively work with customers to reduce waste costs and increase recycling efficiency.

From newspapers, coffee cups and food cartons to cardboard boxes, corrugated cardboard and paper, we achieve a 100% recycling rate on all cardboard and paper collections. This means that there is no landfill tax to pay, resulting in significant cost reductions - great for your bottom line, amazing for the planet.

Ward is committed to being at the forefront of cardboard recycling in the UK.

Recycling & Management

Cardboard

In the UK, we consume over 8 million tonnes of cardboard per year. In the majority of cases, cardboard which has been previously sent to landfill can be 100% recycled and re-used.

Cardboard recycling is a part of the integrated waste management solution Ward offers to businesses throughout the UK.

We operate to EU standards, giving you peace of mind that you are dealing with a highly professional service provider at all times.

Why choose cardboard recycling?

- Our team manages every aspect of the process, freeing up your time and resources.
- Reduce your business costs by diverting all your cardboard and paper waste into the recycling chain instead of costly landfill.
- Boost your environmental performance through recycling.
- Reduce your carbon footprint and minimise your environmental impact.
- Improve overall resource efficiency.

Not sure if your cardboard waste is suitable for bulk recycling?

Get in touch with the team now and let us help.

Bulk cardboard recycling - simple storage solutions for business.

Cardboard can be stored and collected in wheelie bins, open skips, roll on/off or bespoke containers. By using Ward for your cardboard collections you benefit from full traceability through every stage of the collection and recycling service.

We also offer the most competitive and sustainable prices for cardboard collection services based on current market rates.

78%

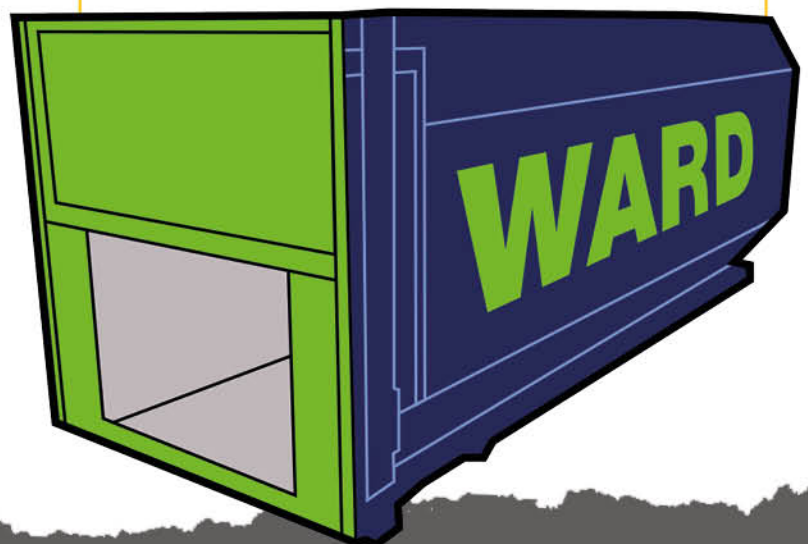

In the UK, over 78% of cardboard and paper is recovered and recycled, which is very encouraging. This is considerably higher than the average in the EU.

88%

The UK has an impressive recovered paper utilisation rate of 88%.

70%

Paper recycling emits over 70% less carbon dioxide and other greenhouse gases than virgin paper production.
