

WARD

Great with Glass

Recycling & Management

Ward's simple and effective glass recycling service enables virtually 100% of all types of glass to be recycled. This means you can avoid paying landfill tax and take greater control of your waste management costs.

Tailored to your needs, Ward's glass recycling collection service makes it easy for you to recycle all of your clear, green, brown or sheet glass, 24 hours a day if required.

Our team is available to advise on the best value service to meet your requirements.

Ward is committed to being at the forefront of glass recycling in the UK.

Glass

Recycling & Management

Glass

Every time you put a glass container in a recycling bin, bottle bank or kerbside box you make a big difference to the environment and reduce the amount of waste that ends up in landfill. With a little effort glass jars, bottles and containers can be recycled and be used over and over again.

We can handle all types of glass including clear, green and brown glass, sheet glass including toughened and security glass and any type of industrial manufacturing waste glass.

All of the glass we recycle is converted into new, single colour glass packaging.

Why choose glass recycling?

- Our team manages every aspect of the process, freeing up your time and resources.
- Reduce your business costs by diverting all your glass waste into the recycling chain instead of costly landfill.
- Boost your environmental performance through recycling.
- Reduce your carbon footprint and minimise your environmental impact.
- Improve overall resource efficiency.

Not sure if your glass waste is suitable for bulk recycling?

Get in touch with our waste specialists today to find out more.

Bulk glass recycling - simple storage solutions for business.

Ward's glass recycling service makes managing your glass waste easy.

Glass is collected in various sized containers.

Collections are available on a weekly or fortnightly scheduled service or a 'call & collect' basis. For significant volumes we offer open or enclosed skips and roll on/off containers.

1.6Mt

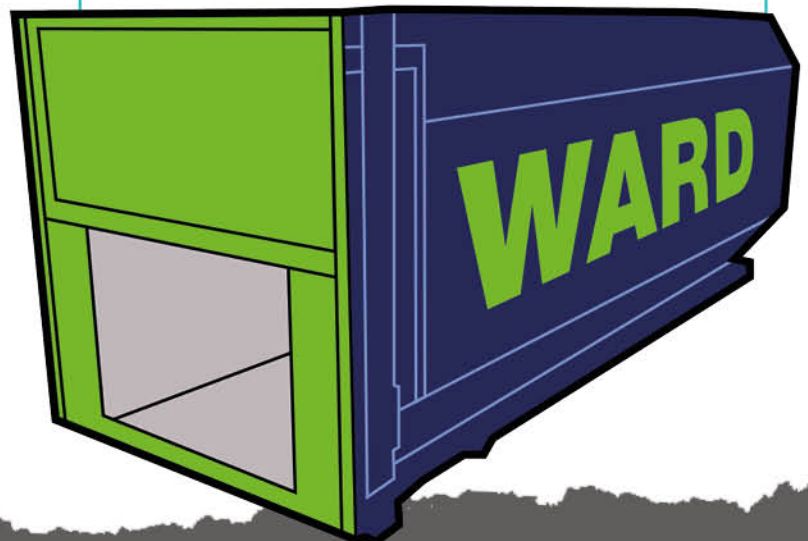

The UK as a whole recycled over 1.6 million tonnes of waste glass in 2016 which was a 2% increase on the previous year.

100%

Bottles and jars made from glass are 100% recyclable and can be recycled endlessly without any loss of quality.

1t

For every 6 tonnes of recycled glass used in the production, 1 tonne of carbon dioxide creation is avoided.
